

MURAT CAN BAŞKAN

MARINE ENGINEER

HOLDER OF UNLIMITED CHIEF ENGINEER CoC / IMarEng

MARITIME / ENGINEERING / SOFTWARE / DECISION SYSTEMS

Marine engineer combining seagoing experience across newbuild delivery, dry-dock and survey preparation, engine-room operations, maintenance, troubleshooting and team coordination with a technology-led product mindset.

2026 MARITIME INNOVATION

- Piri Reis University - ARISTTO Sustainable Blue Transformation Pre-Incubation Programme, 2026: Accepted with an AI-enabled maritime engineering software venture focused on evidence-grounded, source-traceable decision support; advancing the project with the University through validation and product development.
- IMarEST - Incorporated Marine Engineer (IMarEng), 2026: Awarded following professional assessment, recognising competence in managing marine applications of current and developing technology and undertaking responsibility in engineering design and development.

2025-PRESENT PROFESSIONAL DEVELOPMENT

- LSA and FFE Inspection, Testing, Maintenance and Operational Requirements - Delmar Academy (14 August 2026); SOLAS, the LSA Code, IMO MSC.402(96), IMO MSC.1/Circ.1206/Rev.1 and applicable IACS requirements.
- YOKDIL English Examination - Achieved the Ministry-required score (May 2026).
- Carbon Capture Certificate - GEMIMO (June 2026).
- VLSFO Standards and Operational Considerations - İlkfer Group (June 2026).
- OPRC Introduction Certificate - IMO.
- MARPOL Annex V Certificate - IMO.
- Governor Fault Diagnosis and Oil Mist Detector (OMD) Training - GEMIMO / Tamay Corp.

PROFESSIONAL EXPERIENCE

SECOND ENGINEER

YA-SA SHIPPING - M/V YA-SA NEPTUNE (ME-C)

- Participated in the shipyard delivery and fleet acceptance of a newly built ME-C engine vessel.

2007 - 2023

SECOND ENGINEER

NAKKAŞ SHIPPING - M/V KATYA ATK

- Supported operational and condition improvements for a Turkish-flagged vessel in preparation for RightShip requirements.

2023

SECOND ENGINEER

BEKS SHIPPING - M/V BEKS LEO

- Took part in the takeover of a 2012-built Capesize bulk carrier from a foreign owner and its integration into the company fleet.
- Prepared the vessel for its five-year dry-dock and special survey; coordinated machinery and deck-equipment maintenance with service engineers; supported reporting, certification and class-approval activities; and subsequently prepared the vessel for an AMSA Port State Control inspection.

2022

SECOND ENGINEER

DENSAY GROUP - M/V SSI PROVIDENCE (ME-B)

- Served aboard a newly built vessel delivered from a Hyundai shipyard, supporting main and auxiliary machinery acceptance, implementation of company ISM procedures, and familiarisation with the vessel's automation, PMS and operational systems.

2021

FOUNDER

BSKN NET

- Founded a maritime software initiative with support from software developers to create capable, user-friendly digital products for the sector. Following market and competitor analysis, the initiative was placed on hold until stronger capital and market conditions could support a more robust launch.

2020

PROFESSIONAL EXPERIENCE / CONTINUED

SECOND ENGINEER

LIDER GROUP - M/V FOREST PANAMA

- Supported the takeover of a foreign-owned vessel into the Turkish merchant fleet, including delivery procedures, renewal of vessel documentation and re-establishment of ISM documentation.

SECOND ENGINEER

M/V SAADET C

- Gained practical experience in main-engine maintenance and hydraulic maintenance of the vessel's four deck cranes.

SECOND ENGINEER

YA-SA SHIPPING - M/V SEA PIONEER

- Carried out selected main-engine maintenance tasks within the planned maintenance programme.

MAINTENANCE AND REPAIR ENGINEER

KARPOWER - AYŞEGÜL SULTAN / OSMAN KHAN

- Worked on floating power plants equipped with 12 and 24 Wärtsilä V-type generator sets, with installed capacities of approximately 240 MW and 480 MW. Responsibilities included planned maintenance, team coordination, spare-parts coordination and plant-operation support.

SECOND ENGINEER

DFDS - UN MARMARA / UN PENDİK / UN ATILIM

- Served on three sister Ro-Ro vessels fitted with two four-stroke main engines and controllable-pitch propellers, gaining operational and manoeuvring experience.

SECOND ENGINEER

DENSA SHIPPING - DENSA SEA LION / DENSA LION

- Managed maintenance, repair and personnel work assignments in the engine room and on deck within the responsibilities of a Second Engineer.

SERVICE ENGINEER

ALFA LAVAL

- Performed maintenance and repair work on shore-based equipment within a global organisation offering a broad portfolio of marine auxiliary machinery and systems.

PROPELLER AND SHAFT ENGINEER

TGE SHIPYARD - GEMAK GROUP

- Worked on shaft maintenance for a twin-propeller, controllable-pitch vessel and a sister vessel undergoing the same maintenance programme.
- Supported shipyard scheduling, work sequencing, multi-team coordination and time planning.

THIRD ENGINEER

DÜNYA SHIPPING - M/T GAN DIGNITY

- Expanded previous steam-turbine experience aboard a newly built vessel equipped with more advanced technology.

FOURTH ENGINEER

DİTAŞ SHIPPING - M/T DİTAŞ / CUMHURİYET / T SEVGİ

- Operated steam-turbine cargo pumps and supported cargo-discharge and ballast operations.
- Operated boiler systems at different pressure modes for inert-gas, ballast and service duties; maintained a thermal-oil boiler system and prepared the secondary system; gained experience with a shaft generator on a four-stroke engine and with controllable-pitch propeller operation and maintenance.

THIRD ENGINEER

DÜNYA SHIPPING - M/T GAN SURE

- Operated the FRAMO and inert-gas systems, supported tanker ISM readiness, and followed and recorded planned-maintenance activities.

2019 - 2007

2019-2020

TECHNICAL COMMAND

IMarEng / 2026

CORE COMPETENCIES

- Engine-room operations
- Maintenance planning
- Troubleshooting
- Team and resource coordination
- Spare-parts procurement
- Shipyard, dry-dock and survey preparation
- PMS and ISM implementation
- Newbuild delivery
- Technical reporting
- Maritime software and decision-support systems

EDUCATION

- Istanbul Technical University - Marine Engineering Operations, 2002-2007 | YDO '06
- İçel Anatolian High School, 1999-2001

MEMBERSHIPS

- IMarEST - Incorporated Marine Engineer (IMarEng), 2026
- UYBM - Turkish Association of Ocean-Going Chief Engineers, General Assembly Member
- GEMIMO - Chamber of Turkish Marine Engineers, Member
- DEFAMED - ITU Maritime Faculty Alumni Association, Member

LANGUAGES

- Turkish - Native
- English
